

Craft your story.

Located along the Falls of the beautiful Tar River, Rocky Mount Mills is a development of historic proportions, bringing together residential, commercial, cultural, and entertainment amenities in one unique destination.

The 82-acre campus of this newly-restored cotton mill established in 1818 showcases a bold approach to historic preservation — honoring the past while also breathing new life into the plank floors, stout timbers, and intricate brickwork of this storied place.

Rocky Mount Mills features a vibrant community gathering area, abundant restaurant options, craft breweries, a “tiny house” hotel, plus light-filled residences and workspaces. It’s a place to wander, to explore and be surprised. It’s a place to connect, to collaborate, and be inspired — a place to craft your own story.

*A river is more than an amenity,
it is a treasure.*

—Oliver Wendell Holmes

Not your run-of-the-mill mill.

Whatever story you craft, celebrate at Rocky Mount Mills. Enjoy our beautifully landscaped campus, complete with panoramic views of the Tar River. The mill's soaring ceilings and abundant windows combine with open-air spaces for the perfect vibe that's both historic and contemporary.

The Mills is home to a brewery incubator with five pint-sized breweries. We combined a brewery education degree program at Nash Community College with state-of-the-art equipment and facilities, giving start-up brewers the resources necessary to launch their business.

COMING SOON— River and Twine, **the world's largest tiny house hotel**, invites guests to make a night (or more!) of your visit to the Mills in one of 20 unique boutique tiny homes featuring modern amenities, outdoor space for grilling, children's activities and relaxing along the banks of the Tar River. Opens June 1.

The family-friendly **Mill Music Sessions** series showcases NC-based bands on the Mills' scenic lawn, creating a perfect opportunity for folks to enjoy a bite and beer from one of the Mills' many breweries and restaurants. These concerts join the ongoing **Art at the Mills** series, which brings world-class performances, local artists, and hands-on workshops to the campus.

The Power House, a century-old brick building featuring 10 foot windows and exposed wood beams offers an unforgettable backdrop for meetings and events.

Rocky Mount Mills offers locals, visitors, and travelers just passing through a truly unique and innovative way to experience eastern North Carolina.
